

WHERE HOPES & OPPORTUNITIES MEET

### **Pachamama has teamed up with a new charity partner in Nepal**

Right4Children is a small hands-on charity who has been working in western Nepal for the last 10 years and whose mission is to provide children and young people from disadvantaged backgrounds with better life prospects through sponsorship and self-help.

In 2023 & 2024 Pachamama are contributing to the following projects in poverty stricken slum communities which have built up in cities due to the long civil war, natural disasters and economic hardship.

### **Financing a bore hole for the community water project at a slum area**

Many of these communities live without access to clean water, so together with organizing community labour, this will supply clean water to Khudi Khola, a city village community in Pokhara.

The community working together to build the borehole means the local people are involved in maintaining the pipes and tanks for years to come. These photos are from a previous similar project in a different city village community.

- An extra donation from you of £10 would contribute to building the infrastructure to supply clean water to 1 more person

### **Financing healthy lunches for young children**

in two early childhood development day care centres set up by Right4Children in city slum communities to care for children and allow parents to earn more and learn new skills.

**- An extra donation from you of £5 would supply lunch for 7 children for a week**

### **Financing a full-time health worker covering 3 slum community centres**

providing health checks for children and advice and health awareness campaigns for mothers at the centres which have been set up by Right4Children.

**- An extra donation from you of £1 would contribute to similar health care for 1 more child for a year**

Pachamama are also

### **sponsoring young people from disadvantaged backgrounds**

including young men from slum areas at risk of alcoholism and drug abuse to attend the FAB school of hospitality and catering. The school will also act as a community centre supporting local communities

**An extra donation from you of £20 will support one student to reside at the FAB school for a week**

### Srijan's story

Srijan Budha Magar is from Rolpa, a remote village in Nepal where opportunities are scarce. He was born into a disadvantaged family facing economic hardship. Being the eldest son he is expected to support his family.

In 2021, thanks to sponsorship by Right4Children, Srijan was able to join a hospitality focused training programme at GATE Vocational FAB School.

He proved to be a determined, charismatic and positive student and now works full-time at Pavilion Himalayas Hotel, earning a stable income.

He has become the dependable support his family relies on and nurtures aspirations to finance his own further education.
